# Identifying and Combining Alternative Distance Learning Systems

(Collaboration Activity)

Directions: After you have read and researched the reports listed on page 1 of ISG #5, **contact another member of this class (collaborate with a colleague or two!) and identify as many different forms of distance learning delivery systems.** Identify their strengths and weaknesses. Major headings are listed below with one example in each group--to get you going! Also, if you combined several different technologies together, would it create a better or worse condition--comment. **Turn this in and it will count as an Observation Assignment for the two of you! Email it to George. gtmiller@usoe.k12.ut.us**
